

MEMORANDUM OF UNDERSTANDING

between

**National Research University "Moscow Power Engineering Institute",
Moscow, Russia**

and

**Sharif University of Technology
Tehran, Islamic Republic of Iran**

Moscow, Russia

"25" 04 2017 -

Both Sides inspired by the mutual interests in the fields of teaching and research have signed the present MOU for development of scholarly interaction, cultural interchange, co-operative research and other forms of academic collaboration.

In the field of scientific research, the collaboration should include the following efforts:

- to conduct joint research projects;
- to exchange scientific and research publications;
- to promote publishing of joint projects results;
- to organize joint seminars, conferences, workshops, etc.

In the field of teaching innovation, the collaboration should focus on the following activities:

- teaching methods and experience exchange;
- teaching staff members exchange in the forms of internship, guest lectures, seminars, etc.

In the field of student exchange, the collaboration should address the following aims:

- development of short-time exchange programs;
- development of joint education programs.

Both Sides agree that this Memorandum of Understanding is not a formal legal agreement giving rise to any legal relationship, rights, duties or consequences, but it is only an expression and record of the purpose of the Sides to which the Sides are bound in honor only.

The particular programs of this collaboration will be specified by additional arrangement.
